Facials and Massage Therapies

GERMAINE DE CAPUCCINI
ADVANCED PROFESSIONAL COSMETICS

Germaine de Capuccini has developed some of the world's most talked about skincare and spa therapies. The successful combination of natural active ingredients with cutting edge technology has enabled the company to develop some of the most influential skincare products and professional spa therapies the beauty industry has ever seen.

Lava Shell massage is a type of heat treatment that uses Tiger-striped clam shells as a massage tool. Lava Shells massage is greatly enjoyable for anyone with tense muscles, as the heat from the Lava Shells will gently relax and smooth away knots. They also give off calcium ions when heated, which can help to firm and regenerate the skin.
